

## Speed Indicator Display (SID) Data Summary for March 2025 Meeting

For the majority of February 2025, the two signs remained in the same positions as in January. However, the SID outside St Mark's Church was moved to School Lane on 23<sup>rd</sup> February as soon as the road works in School Lane had been completed. The A272 eastbound data is therefore partial and includes a few days when there were one-way traffic lights in place. Despite the 'traffic calming' impact of the road works, the two sets of figures are shocking showing, for example, that between 12.00 and 15.00 over 60% of vehicles travelling westbound past Wilderness Wood were exceeding the speed limit!
